

The Forrester Total Economic Impact™ of The Microsoft DevOps Solution

Through eight customer interviews and data aggregation, Forrester concluded that The Microsoft DevOps Solution has the following three-year financial impact:

INCREASE IN DEPLOYMENT FREQUENCY

BEFORE

Release frequency before investment

every
4 weeks

AFTER

Once
a day

15x release frequency with the Microsoft DevOps Solution

Visual Studio Team Services gives us an end to end fully integrated solution. I don't want overhead where developers are focusing on configuring their release cycles. I want them to focus on building for the user. And Microsoft gives us functionality that we can easily consume straight out of the box.

-Management consultant, IT consulting company

THE MICROSOFT DEVOPS SOLUTION BY THE NUMBERS

Infrastructure savings via Azure

\$1,575,856 over 3 years

An equivalent on-premise, internally managed environment would cost 7x more than using Azure cloud services with the Microsoft DevOps Solution

2 FTE

Improvement in productivity - IT Operations team

15%

Improved developer productivity

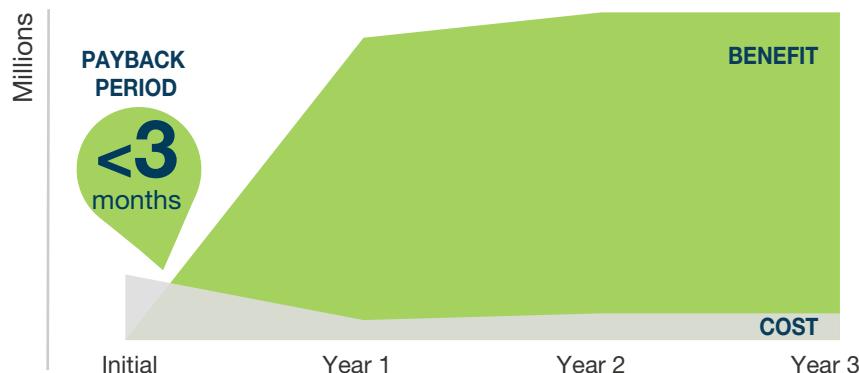

20%

Improved tester productivity

Fair to say, [the Microsoft DevOps Solution] increased our team's velocity in terms of what we're able to deliver by 25% to 30%.

-Consultant, IT development and process integration firm

SUMMARY OF BENEFITS

ROI

529%

NPV

\$3.9M
